

Welcome and Introduction

Hi there,

Welcome to the 3MTT Nigeria Starter Pack. This guide will help you get started on your 3MTT journey.

Program Overview

About 3MTT

The Three Million Technical Talent (3MTT) programme, a critical part of President Bola Ahmad Tinubu's Renewed Hope agenda, is aimed at building Nigeria's technical talent backbone to power our digital economy and position Nigeria as a net exporter of technical talent.

The 3MTT program is in phases, the first phase which is the 1% phase has the first cohort who have successfully graduated from the fellowship.

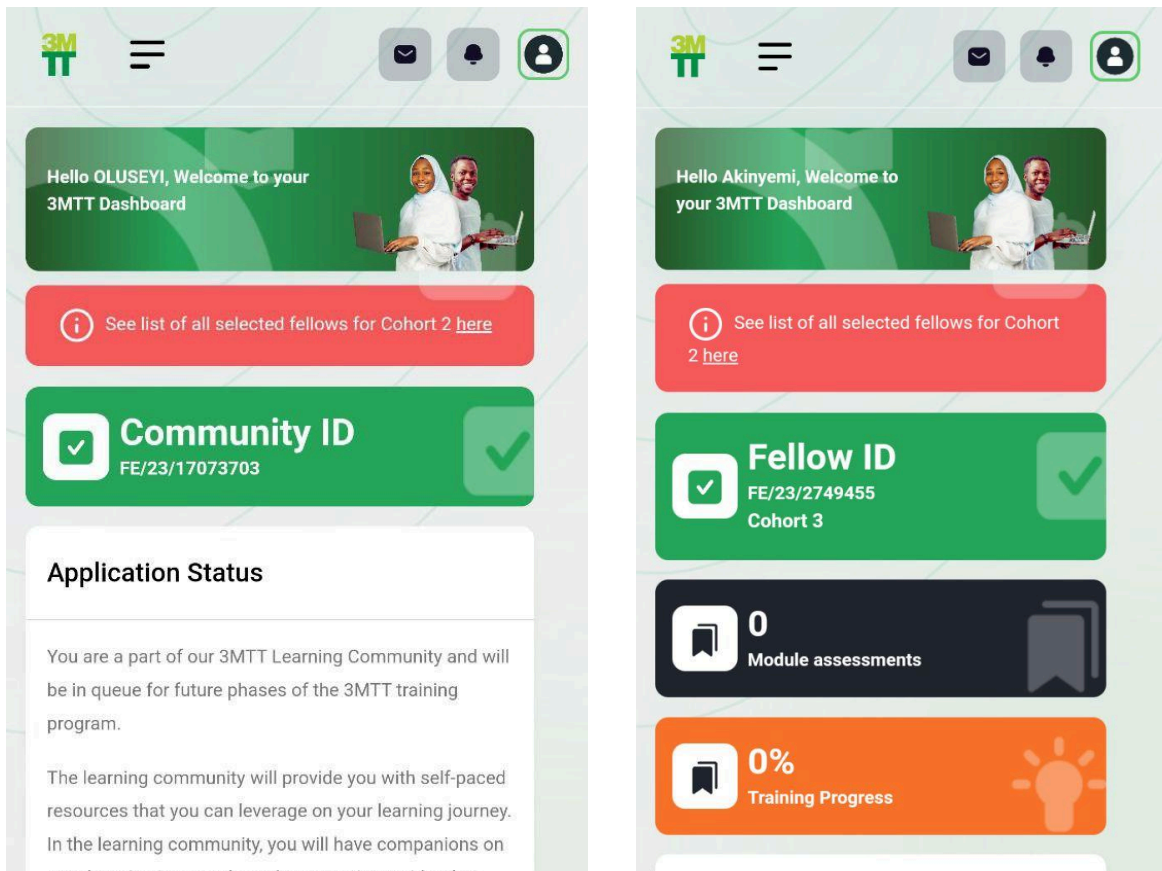

The second phase which is the current phase of the program has 3 cohorts: Cohort 2, 3 and 4. These cohorts have individuals who were randomly selected through a random selection process after applying for the 3MTT program. These individuals in these cohorts are also referred to as fellows.

However we also have the learning community. These are individuals who applied for the 3MTT program, but were not selected after the random selection process was done and are part of the next phase of the 3MTT program. That is to say you have not been selected into a cohort, but are on a waiting list.

If your dashboard looks like this, you are:

A: A 3MTT Community Member

B: A 3MTT Fellow

Navigation Guide

To be gotten from the customer support team.

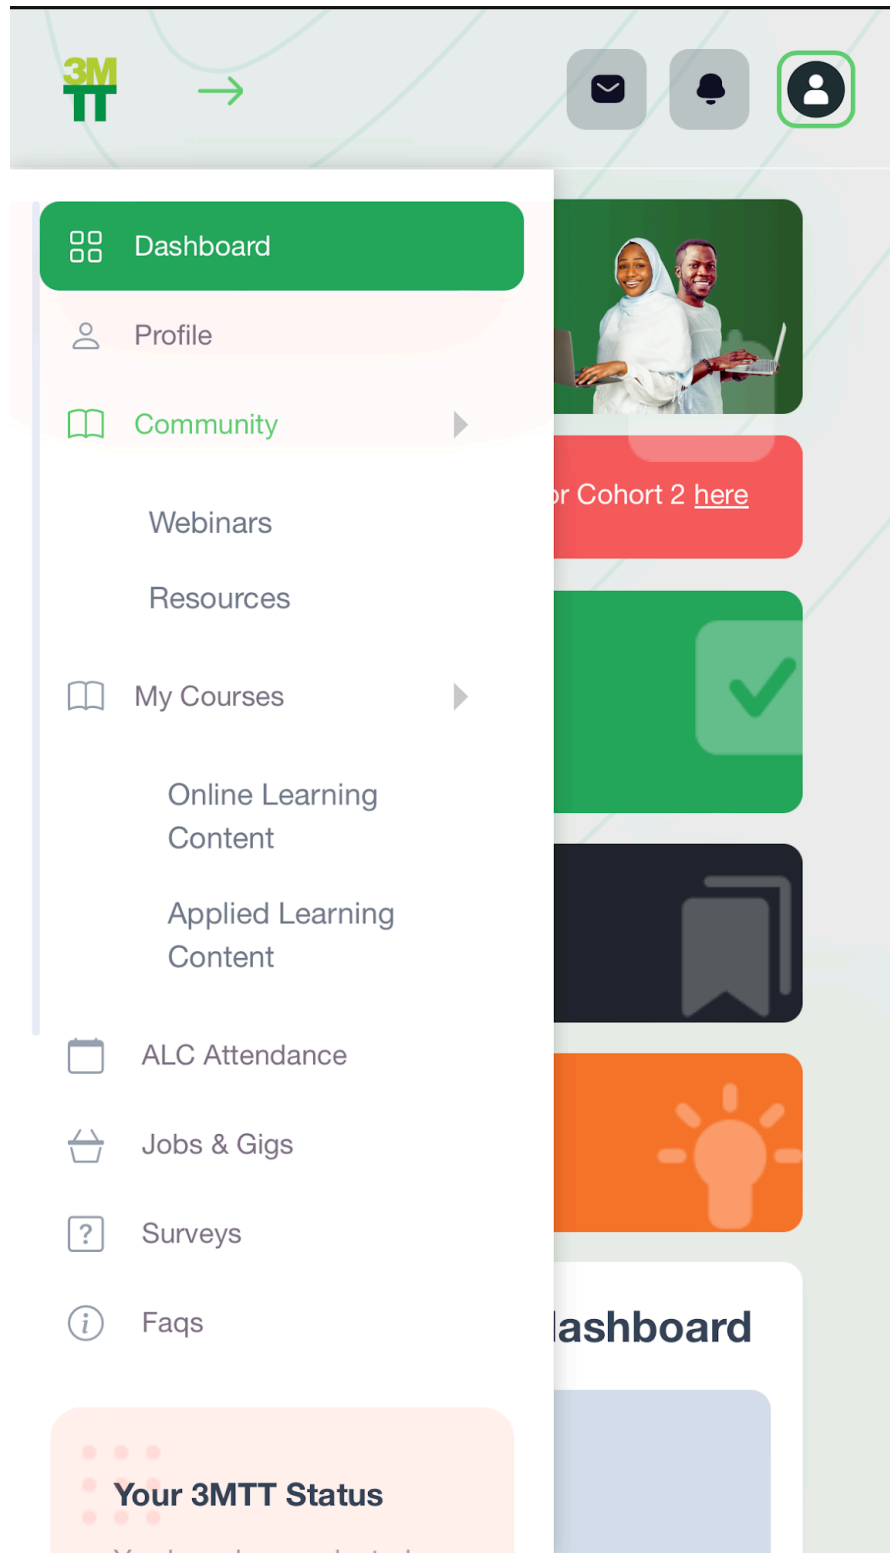

Foundational Courses

Remember that the selection into the 3MTT fellowship to either cohort 2, 3 and 4 was done through a random selection process. However, we are providing you an opportunity to fast track into the current phase of the program and be a part of Cohort 2, which will be starting their training soon.

All you have to do is finish at **least 1 'Foundational Course'** which is available on the 3MTT portal.

To access your foundational course, navigate to 'My Courses' and then click on 'Online

Learning Content', if you are in Cohort 2, 3 and 4. If you are a 3MTT Learning Community member, navigate to 'Foundational Courses', and start your foundational courses immediately.

Once you are done with at least one foundation course, do well to immediately fill the form at the top of the foundational courses or online learning content pages respectively.

Foundational Courses

Welcome! Foundational courses are a prerequisite for the 3MTT Programme. Click the links below to access your foundational courses. If you complete all Mandatory courses and a Career Essential in your chosen track, you can be fast tracked to the next 3MTT cohort. **Make sure to fill out this form** after completing your introductory courses to be eligible to join our waitlist.

Online Learning Content

Welcome! You're now embarking on your online learning journey, beginning with the foundational courses. Click the links below to access your courses while you wait to be assigned to your Applied Learning Cluster and make sure to **fill this form** to redeem your incentive after completing all your introductory courses.

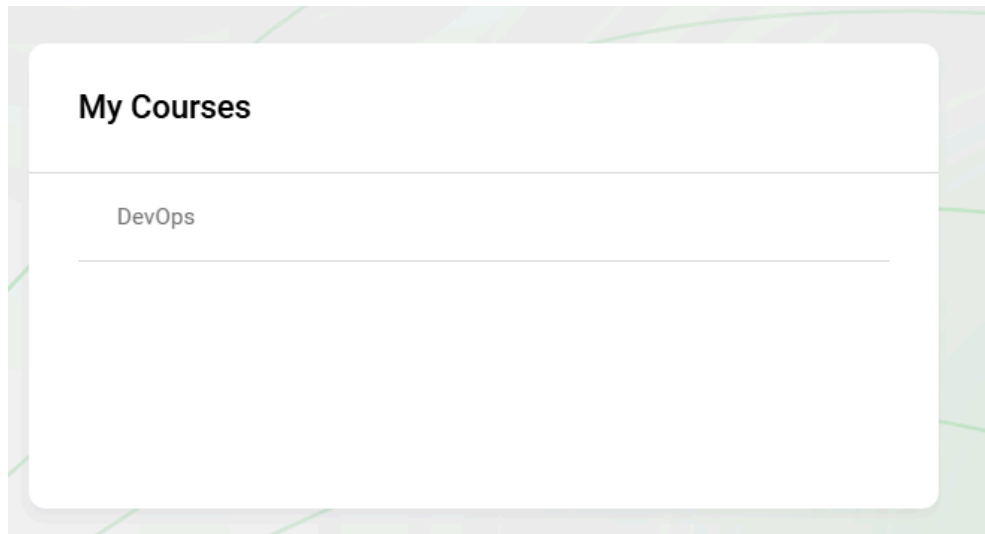

Learning Tracks and Courses

As a 3MTT fellow or community member, you will be in only one of these learning tracks listed below:

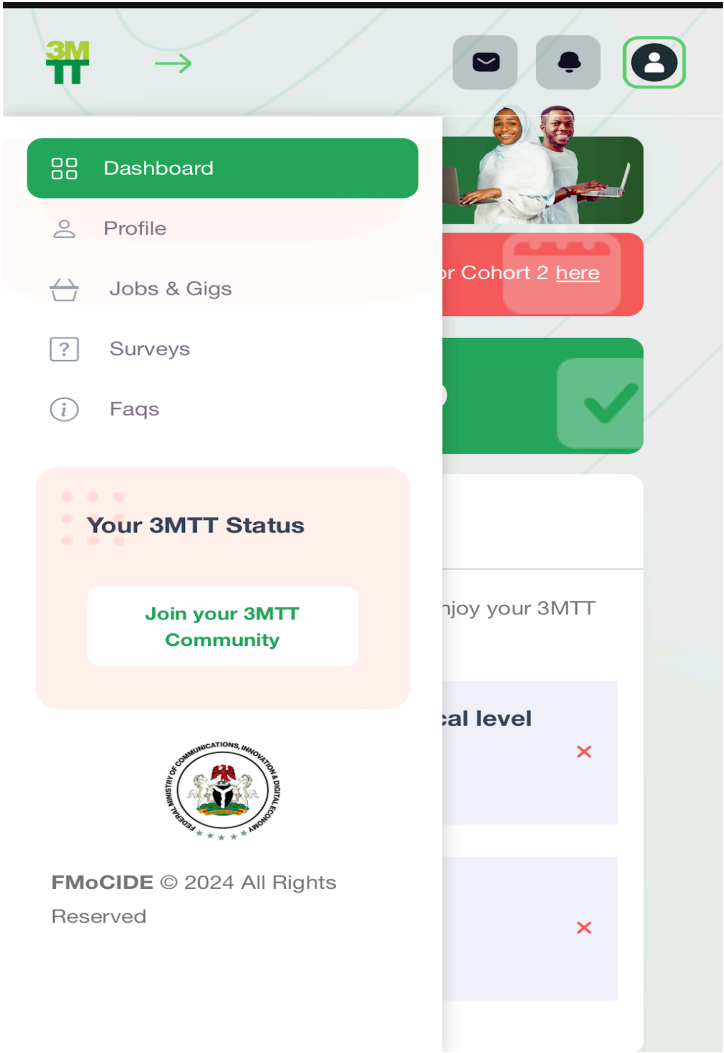

- | | | |
|---|---|--|
|  Software Development |  Product Management |  Cybersecurity |
|  UI/UX Design |  Data Science |  Game Development |
|  Data Analysis & Visualisation |  Animation |  Cloud Computing |
|  Quality Assurance |  AI / Machine Learning |  Dev Ops |

This is the course you selected while applying for the 3MTT program. You can identify your

chosen course under the 'My Courses' Section in the 3MTT Dashboard

Kindly know also that you have the opportunity to change or update your chosen course, simply by navigating to the profile section and click 'Update Profile'

Course:	Data Science

3MTT Training Model

The 3MTT program combines both physical applied learning and online learning for 3MTT fellows. Based on closeness to your location and your learning track you will be attached to a physical center, known as an Applied Learning Cluster (ALC) where you receive physical training along with your pairs in your learning track and also work on projects and tasks as an individual and as a team, to showcase the knowledge you are receiving. You also have your online courses as well which you are expected to learn with as well.

Resources for Learning Community Members: Learning Community members have access to professional learning courses on free platforms such as [IHS Academy](#), and other Community Resources provided on the 3MTT dashboard. It's important that Learning Community members complete the courses on IHS Academy along other community resources, in order not to be idle while waiting to be assigned a cohort.

Community Activities

As a member of the 3MTT Community it is important you engage in our community activities. These are fun activities with rewards and prizes attached for you.

Some of these activities includes:

1. **Knowledge Showcase:** This is a monthly showcase of your learnings and innovations from the 3MTT Programme to stand a chance to win one of 50 laptops & 5 MiFis. Create a 2 minute video that explains a project or idea you have and the problem you are trying to solve using your knowledge so far post it on social media using the hashtags #3MTTLearningCommunity and #My3MTT. Tag @3MTT Nigeria across X, LinkedIn and Facebook and don't forget to include in your Fellow or Community ID in the post.
2. **Weekly Reflection:** This is a weekly unique task to promote learning. At the beginning of the week, a new task would be announced by your State Community Manager, participating in this task gives you a chance to win 10GB MTN Data.

Note: Every reward or item won in participating in any community activity such as laptop, routers, data, etc takes within 2-6 weeks to be sent out. We kindly ask for your patience as we distribute the rewards.

Career Development and Placement

3MTT has several initiatives for career-building and work opportunities, such as the Micro-jobs (Awarri, and USPF), NJFP, and other organizations' internships. To know more about this please reach out to your state community manager.

What to expect and what not to expect in the 3MTT Program

- You are not entitled to a job from 3MTT, however there are career development and placement opportunities available in the 3MTT program
- You are not entitled to receive a laptop in the 3MTT program, however you stand a chance to win a laptop by participating in the 3MTT knowledge showcase.
- You are not expected to pay anyone or an online platform for any course or training in the 3MTT program.

Success Stories and Testimonials

Abas.Dev 
@abazspecial

I'll like to experience this again 😊
@VictoriaNwanna when is our next meetup? I can't wait 😭
